- Contents in presentation

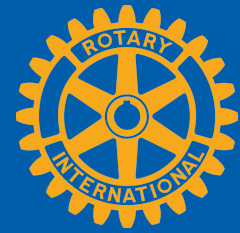

SmartAid Smart Classes

Project Cost US\$ 10,000

SMARTAID - Smart Class for Ukrainian Students Initiative

SmartAid Smart Classes

SMARTAID – Smart Class for Ukrainian Students Initiative

The war in Ukraine has displaced close to ten million Ukrainian citizens thus far. SmartAID is on the ground and working closely with partners in Ukraine and bordering countries to respond to this crisis. SmartAID teams have witnessed firsthand how displaced Ukrainian families are desperately trying to register their children to local schools in safe Ukrainian cities and in host countries. To address this, SmartAID launched a program called 'Smart Classes' with the goal to support both internally-displaced Ukrainian Children as well as those who are currently refugees in host countries. To expand this critical initiative to more Ukrainian children, we are fundraising to add additional Smart Classes throughout the region.

Smart Class Components:

45-50
Students
Per Smart Class

Teachers
(incl. salaries)

Laptops
& Connectivity
Equipment

School Supplies
& Furniture

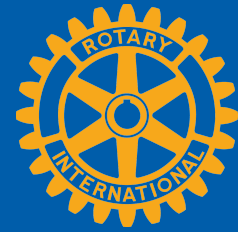

Financial Metrics:

\$10,000 to fully equip and launch one Smart Class

Additional Funding Requirement

- Overnight Stays during travel to and from the camp
- Pocket money for Ukrainian guides/tutors

Summer Camp Slovenia

Ulyana, 15 years

In the camp, I discovered the qualities of a leader and became more confident in my strengths and goals.

I met foreign people - I will remember this meeting for the rest of my life. The speakers tell their stories very sensually, it motivates!

And this meeting will give me the opportunity to practice my English and learn more about leadership, even some speakers can additionally analyze the material personally with everyone at any time, which is what I need)

Yuliana, 15 years

When I went to the camp, I hoped to become more open and self-confident, to improve my knowledge of the English language. However, I did not think how much this week would give me. I understood what I can be strong in, and the advice shared by the organizers was really useful, I looked at the world with different eyes. That is why I dream of taking part in the meeting because I am sure that it will give me new knowledge and motivation for the future!

At the camp, the organizers opened up the world of business ideas and startups to me, gave me enough motivation to start working on my project, and now help me at every stage. Thanks to the next meeting, I will be able to get more new emotions and experience, because it will already be an international camp, where there will be teenagers from different countries of the world

Ivan, 17 years

This camp gave me the opportunity to express myself, meet interesting people, think about my future and focus on important things. I could understand the very concept of business and how it works. I am very glad that I was able to participate and would like to join the meeting to be able to discuss with the mentors the issues related to the choice of future profession and to meet new people.

Snizhana, 15 years

Humanitarian Generator requests

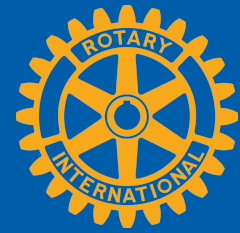

A request for Rotary Club Milwaukee and Rotary Club of Global Impact to support with donations a drive to purchase Generators for the Ukraine. These will be provided to humanitarian causes:

- **Hospitals**
- **Children's homes**
- **Shelters**

Their target is to raise US \$ 75,000

Aquabox Project Cost circa

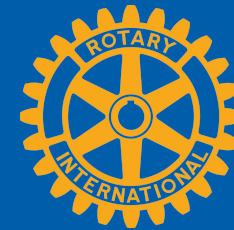

Designed for use by individuals or a family, the AquaFilter Family unit can deliver 1 litre per minute and half a million litres of clean drinking water over its working life. The AquaFilter Family unit is fastened to a container of water, such as the Aquabox or a bucket, and using a simple hand pump drinking water is dispensed to a cup.

Designed for use in community amenities the AquaFilter Community unit can deliver 6 litres per minute and over 1 million litres of clean drinking water over its working life.

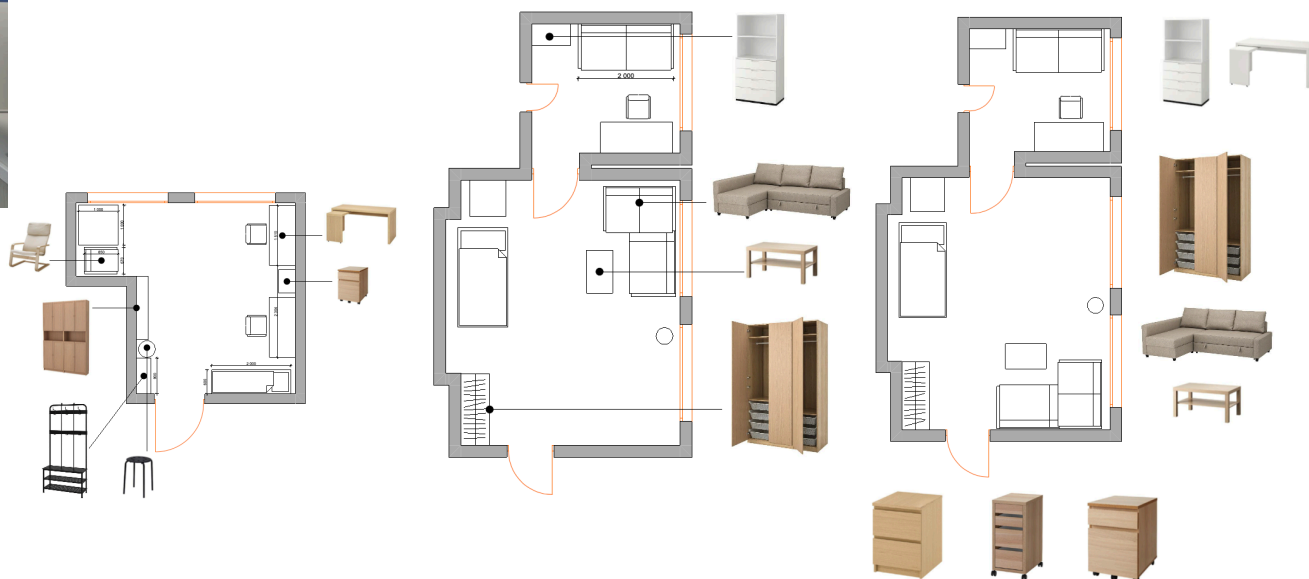

Sleep Laboratory Rooms

Project Cost circa US\$ 10,000

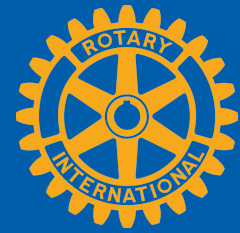

Sleep Laboratory Rooms:

- Катамнез / Catamnesis
- Лабораторія сну / Sleep laboratory
- Апаратна / Hardware
- Душова кімната / Shower

Academy of Contemporary Art

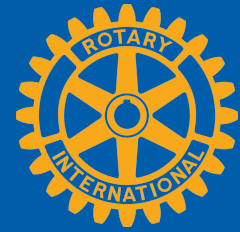

Salvador Dali Academy Kyiv

Family Garden Re-Housing: Concept

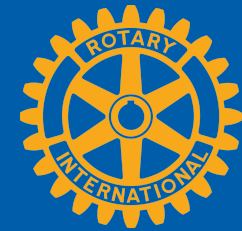

CONCEPT:

- We raise funds to provide free housing to families affected by russian aggression.
- Houses are being built on plots owned by the land owners, where the house was destroyed.
- Financially affordable, which guarantees their mass installation.
- Providing such a housing does not exempt the family from various types of assistance.
- The houses are ready for immediate occupation, equipped with the necessary set of furniture and household appliances.
- Our project stipulates that the installation of a modular house takes place at the benefactor's expense. This makes it possible to make appropriate and transparent use of funds.
- We report on each stage of project implementation.

100% UKRAINIAN PRODUCTION

Family Garden Re-Housing: House Costs

PROJECTED COST OF MODULAR HOUSES

There are standard layouts of houses depending on the number of people who will live there:

Each module is constructive identical
